

Ruthenium

Product	Ruthenium
Manufacturer	Kurt J Lesker Company
Composition	100% ruthenium; solid
Synonyms	Ru
Typical Uses	Thin-film deposition for microelectronics, catalysis, surface coatings
Hazards	1 0 0 Not regarded as hazardous under normal use.
Storage	Not stored at the nanoFAB.
Disposal	Sharps waste in 10k area or cleanroom (broken specimens)
Comments	Not a stocked material: users must provide their own sputtering targets.
Status	Deposition allowed in all sputtering systems.

Check First

Please contact a nanoFAB staff member for uses not listed above.
