

Temporary ECERF Door Access

 As of January 01, 2022 entry to each building on the University campus has been limited to those individuals with pre-existing card and/or key access.

If you are a current nanoFAB user, **that does not have ONEcard access to ECERF**, please complete this form to request access. You will be contacted with further instructions once the request has been processed. This process requires a valid U of A ONEcard and CCID. If you do not have one, you may [request a CCID](#).

Once completed, you will be granted access to the North-west main ECERF building door, Monday to Friday, from 7:30 am to 6:00 pm.

 Requests may take up to 3 business days to complete—ensure that you submit your request well in advance of your building access needs (e.g., scheduled tool training, booked tool usage).

 If you are unsure of your access status, please complete an Administrative [LMACS request](#).
