

Request a guided tour

As an open-access facility, the nanoFAB is available for public tours. Tours can be catered towards the interest of the group: we have hosted high school students as well as national and foreign dignitaries. We can arrange tours for groups of 2 up to 10 people, or larger groups can be split up. The facility can also be viewed independently or as a self-guided tour. If you have any questions or would like more information, please complete the following steps and we will be happy to follow up with you.

In order to ensure that we can accommodate your request, please ensure that you provide at least one week's notice.

If you are looking to bring someone into the cleanroom or 10k areas you should [request access for a guest](#).

Step-by-step guide

1. Point your browser to the [Tour Request Form](#)
2. Complete the form below with as much information as possible.
3. Await confirmation
4. Arrive at the scheduled time

*nanoFAB
W1-060 ECERF
9107 - 116 Street
Edmonton, AB*

Please note that tours **do not** include entrance into the cleanroom.
