

nanoFAB Equipment

nanoFAB Equipment Pages

The nanoFAB maintains close to 200 individual pieces of equipment for use by the community. This space is intended to provide detailed information from a tool-centric point of view. In order to access equipment, you must first become a [registered user](#) of the nanoFAB. [Qualified users](#) can reserve and use equipment to perform work independently. Any new processes **must** be vetted through the staff before being utilized within the nanoFAB.
