

Ruthenium

Product	Ruthenium
Manufacturer	Kurt J Lesker Company
Composition	100% ruthenium; solid
Synonyms	Ru
Typical Uses	Thin-film deposition for microelectronics, catalysis, surface coatings
Hazards	<div>100</div> <div>Not regarded as hazardous under normal use.</div>
Storage	Precious metals cabinet in 10k area.
Disposal	Returned to precious metals recycler for reclamation.
Comments	Not a stocked material: users must provide their own sputtering targets.
Status	Deposition allowed in all sputtering systems.
